

David Condon

SVP, Energy Efficiency Services | PowerSecure

David Condon is senior vice president of Energy Efficiency Services at PowerSecure.

In this role, Condon is responsible for reducing energy consumption and utility spending for clients, while leading a dedicated team of professionals committed to promoting energy efficiency across the United States. His focus includes ensuring financial benefits for customers and maintaining the stability of the energy efficiency services organization.

Condon and the EES team spearhead forward-looking energy reduction and sustainability initiatives. The goal is to transition to more efficient and climate-friendly solutions such as facility lighting, mechanical systems, electrical distribution, weatherization and water conservation. These initiatives are designed to minimize resource use within federal, educational and commercial facilities.

Condon brings over 30 years of industry experience to his current role, with a diverse background spanning aviation, military service and energy efficiency sectors. Most recently, he served as a plank owner at AEM, where he helped launch the Energy Efficiency Services group, which later evolved into PowerSecure Energy Efficiency Services. Prior to that, Condon worked in the electrical industry, managing energy-efficient installations at Legget Electric.

Earlier in his career, Condon served as an avionics systems technician in the United States Air Force. He began his professional journey with Pan American Airways, where he held several positions, including Sales and Marketing, passenger service agent, shift supervisor in Departure Services Control and aircraft schedule and maintenance planning.

Condon completed airframe and powerplant training at the Academy of Aeronautics, followed by specialized avionics systems training at the Airforce Training Academy. Additionally, Condon received certification in aircraft weight and balance from the Pan American Training Academy.
